## European seminar Paris 26, 27 and 28 September 2008

### Femmes plurielles ManyWomen

#### *Un voyage au Coeur des différences* *A journey through the differences*

Today, the girls whom we educate in the guiding and scouting live in Europe in a multireligious and multicultural society. Whatever the situation of our associations, mixed or not, the same question worry us :

How, in the context of plurality, to educate today with being women upright on the way of disciple of Christ ?

How by the method guides, to help girls to live by believing, sister of any other guide, whatever our religious ?

*"One asked me to describe more completely that I had with the spirit with regard to the religion when I founded scouting and the guidism. The question that on posed me was : **In what the religion does it enter there ?***

*Eh well, my answer is as follows:: "it does not enter there at all. It is already there at all. It is the factor fundamental, subjacent, of scouting and the guidism"*

*Baden Powell, speech with the conference of scouts and guides chiefs. July 2, 1926*

A meeting CIGG is always an appointment which becomes an event, a topicality which enters our lives. It is not initially an answer but a question which questions my life, which disturbs it and which hustles in to change it.

**Are invited :**

- National commissioner for associations of guides and scouts who accommodate girls
- National or regional chaplains
